EXPERIENCE

ZonSource IT Solutions Pvt. Ltd. (PHP Laravel Developer)

(Apr 2024 to Current) present

- **Backend Development:** Developed and maintained scalable, secure, high-performance web applications using Laravel.
- **Database Management:** Optimized complex SQL queries, managed MySQL databases, and performed data migration and schema design.
- **API Development & Integration:** Built and integrated RESTful APIs to enable smooth communication between front-end systems and third-party services.
- **Collaboration:** Worked closely with front-end developers, UI/UX designers, and project managers to deliver user-friendly and visually appealing web applications.

Projects

→ **The American Hosta Society – Hosta Registration & Management System:** [\(Link\)](#)

- ◆ Developed a registration form with image upload for hosta plants.
- ◆ Created advanced search, filter, and data management features.
- ◆ Built an admin panel to manage registrations, edit records, and view data.
- ◆ Generated PDF reports and exportable Excel/PDF files with filters and email notifications.
- ◆ Designed a responsive and user-friendly UI.

→ **School Tour Checklist System:** [\(Link\)](#)

- ◆ Developed a role-based web application for managing school tours.
- ◆ Created an admin panel to manage schools, inspectors, users, and reports.
- ◆ Implemented full tour workflow with rules, room categories, and inspection requirements.
- ◆ Generated automated PDF & Excel reports with chart visualization and email notifications.

DAPS Software (PHP Laravel Developer Intern)

01/2024 – 03/2024

Projects

→ **EEPAC - (Admin & Dashboard Template)**

- ◆ Contributed to a Construction Management System as part of the core development team.
- ◆ Designed, developed, and maintained web applications using Laravel.
- ◆ Collaborated closely with the team to deliver scalable and secure solutions.

PERSONAL PROJECTS

2023 – 2024

- **Wisdom Publishers** [\(Link\)](#): Designed and developed a complete database and backend system with a fully functional Admin Panel for managing journals, menus, events, emails, and featured articles. Built dynamic frontend pages (About Us, Contact Us, custom menus) tailored for each publisher. Implemented an article management system with creation, publication, and workflow features.
- **Referral & Earn MLM Web Application** [\(Link\)](#): Developed a complete MLM referral system from scratch, including database design, income management, admin panel, and user panel. Implemented plan purchase, wallet management, withdrawal, referral tracking, income distribution, and global/user messaging system with full backend control.
- **Hanuman Chalisa Multilingual Web Application (PHP-Based Blog)** [\(Link\)](#): Developed a PHP-based web application for Hanuman Chalisa, featuring multilingual content, dynamic posts, a recent posts section, and static pages like About Us and Contact Us. Implemented a simple and clean UI with efficient content management for Hanuman Chalisa in multiple languages.

EDUCATION

Bachelor's degree, Uttarakhand Open University
